

Dear Friends,

I do hope that you are well, and trust that amidst all the challenges of life you are experiencing God's blessing.

HEALTH - My cough continues - it is now in its 10th week and is like an old friend! My GPs have been great and have taken a close interest. I am now on my third course of antibiotics and I have just been put on steroids. It has been an exhausting period although I'm feeling fairly fit now. The doctor suggests that it's probably whooping cough.

FOSTERING - C has now been with us for 15 months and during that time Sue has continued to take her to her school in Reading. The school has been outstanding in every respect and we felt it was best, amidst all the changes in C's life, to give her the security of that continued relationship. However, now that it is clear that she is a long term part of our family, we are on the verge of moving her to a school near our home. Both her present school and the new school are going many extra miles to make it a smooth transition and we would love you to pray that the move will go well. Happily two of her best friends at Newbury Baptist Church are in the same year at the new school, so that's a huge blessing.

CAVERSHAM - We were blessed by the visit of a ministerial candidate at the beginning of May, but the church was keen to meet other candidates. So please pray for that continued journey. Please pray for the church weekend (2nd to 4th June) in Windsor. We have about 55 people attending which is simply amazing and a great encouragement.

PORTFOLIO - I have agreed to support the ministry of Premier Media as an ambassador. The organization reaches over 1.2 million people weekly through its Radio station and other media, and I am eager to do what I can to support them. It will just be a couple of days a month so this fits well with my other roles.

It's always a real pleasure to hear your news. Thank you for keeping in touch.

Many blessings,

Jonathan
